

Property Tax Exemptions on Freeport Inventory

Wharton County offers an exemption from ad valorem taxes for manufacturing inventories that meet the definition of freeport. All inventories that remain in the facility for a period of no more than 175 days and are exported outside of the state of Texas within that time frame will be classified as freeport, and are therefore exempt from ad valorem taxation.

Expedited Plan Review & Permitting

In order to ensure that projects are allowed to begin business operations on a timely basis, the City of Wharton, on a case-by-case basis, may provide all plan reviews and permitting on an expedited basis, whether the company chooses to retrofit an existing building or engage in new construction.
