

DISASTER RECOVERY RESOURCES

FEDERAL RESOURCES:

- Disaster Assistance Portal - <https://www.disasterassistance.gov/>

The goal of the Disaster Assistance Improvement Program is to improve access to disaster information and make applying for disaster assistance easier. ***This is not just the beginning of the U.S. Federal Emergency Management Agency's (FEMA's) grant process, but it is also the gatekeeper for assistance from the federal government. For business owners, that assistance will include SBA disaster loans which will be available. Individuals and businesses must register to secure resources. This is an important step of the recovery process that is not well understood.***

- FEMA, under the U.S. Department of Homeland Security (DHS), acts as the managing partner. The site allows you to find disaster assistance that meets individual needs, learn more about the 70 forms of assistance from 17 federal agencies, apply and determine status for disaster assistance and reduce applications required, identify a FEMA Disaster Recovery Center, locate a hotel or temporary place to live, find food and nutrition programs, apply for change of address, and learn more about SBA loans for homeowners, renters, and businesses.

You also may register by calling 1-800-621-FEMA(3362) or 1-800-462-7585 (TTY). If you use 711, relay or Video Relay Service (VRS), call 800-621-3362 directly. The toll-free telephone numbers will operate from 6:00 a.m. to 10:00 p.m. (local time) seven days a week until further notice.
